PROACTIVE RESPONSE

Whether one of your employees, or coworkers tests positive for the coronavirus, or if you simply desire a thorough precautionary decontamination, we are here to help. HydroChemPSC will deploy a team of highly trained and experienced technicians to decontaminate all potentially impacted surfaces effectively.

- Office Spaces
- Lunchrooms
- Restrooms
- Vehicles
- Common Areas
- Control Rooms
- Manufacturing Facilities
- Assembly Lines

CERTIFIED SOLUTIONS

We will only utilize disinfectants approved by the American Chemistry Councils (ACC) and the Center for Biocides Chemistries (CBC) for the safe and effective removal of viral contaminants from suspect surfaces.

Disinfecting process, procedures, work instructions and safety plans have been validated and endorsed by Total Safety’s Certified Industrial Hygienist and Medical Director in accordance with CDC guidelines.

PROVEN EXPERIENCE

HydroChemPSC has over 5,000 employees and 160 locations throughout the United States. Our skilled technicians are experienced in responding to past pandemics such as:

- Ebola
- H1N1
- Anthrax
- SARS

Protect your most valuable assets, your people.

Coronavirus can remain on inanimate surfaces for up to 9 days.

Fogging systems are available.

HydroChemPSC is ready and mobilized to offer you the protection you need in these uncertain times. Contact us today.
